

AIRE GUARDIAN® MOBILE DUST CONTAINMENT CART

ICRA-Compliant Solution for Containing Airborne Particles

AG8000

AG8000

The unique design of the AG8000 makes it the ideal solution for helping to meet ICRA guidelines while performing healthcare facilities projects requiring ceiling plenum access. Designed specifically for projects in healthcare facilities.

FEATURES & BENEFITS

- Unique patented upper structure provides ladder support at the ceiling, giving workers unmatched height access above the ceiling
- Self-locking height adjustment mechanism allows single-handed header extension and retraction to any ceiling height up to 10' 2"
- Built-in top cover allows cart interior to be sealed off while cart is in transport or stored
- Three section fiberglass extension ladder included - 300 lb rating
- Recessed floor pockets and built-in ladder bracket accept and secure ladder in place within OSHA regulations for angle of use and rung spacing
- Cart designed with exceptional structural integrity featuring easy to clean anodized aluminum frame with clear polycarbonate walls, 900 lb load rating and secure locking casters
- Easy Ordering Kits Available:
 - AG8000 includes a fiberglass ladder and variable speed switch
 - AG8000PAS includes an AG8000 and PAS750 Portable Air Scrubber
 - AG8000PAS-RPM includes an AG8000, PAS750 Portable Air Scrubber, and RPM-RT1 Room Pressure Monitor
- Optional Accessories Include:
 - PAS750 Portable Air Scrubber
 - RPM-RT1 Room Pressure Monitor
 - GD930 HEPA Vacuum
 - AG8000 Side Access Panel
 - AG8000 24" Extension

AG8000-SA sold separately

TECHNICAL SPECIFICATIONS

DESCRIPTION	AG8000
Dimensions (LxWxH)	62" x 32" x 77.5" (157.48 cm x 81.28 cm x 196.85 cm)
Maximum Ceiling Height	10' 2" (3 m)
Weight	285 lbs (129 kg)
Door Opening	54.5" H x 22" W (138 cm x 56 cm)
Power	Use a grounded extension cord (not provided) from a 120 VAC 80 Hz, single phase source
Max Load	Cart base 900 lbs (408 kg) Ladder 300 lbs (136 kg)
Sleeve & Top Cover Material	Polyester (meets CPAI 84 Flame Retardant Standard)
Patent	Canadian Patent No. 2,895,016
Specifications subject to change without prior notice.
