Abatement Technologies to Showcase Containment and Air Filtration Solutions at ASHE Healthcare PDC Summit

The manufacturer of world-class abatement products to highlight solutions at International Summit & Exhibition for health facility planning, design, and construction

SUWANEE, Ga. – March 13, 2024 – [Abatement Technologies](#), a manufacturer of world-class abatement and containment products designed to safeguard indoor air quality from harmful air particles,, announces it will be exhibiting at the 2024 ASHE International Summit & Expo on Health Facility Planning, Design & Construction ([PDC Summit](#)) from March 17-20 at the San Diego Convention Center. At **booth #807**, Abatement Technologies will showcase its SHIELD WALL™ modular containment wall system, designed to be used alongside filtration and monitoring equipment to create a complete ICRA containment solution.

The PDC Summit brings together thousands of professionals in all disciplines and career stages to learn, network, and discover innovative ways to create value for the healthcare environment. This year, PDC Summit participants will learn about new practices and solutions to address healthcare’s complex challenges for facility planning, design, and construction.

For more than 38 years, Abatement Technologies has designed and manufactured reliable air filtration and construction containment solutions that help healthcare organizations and contractors maintain a safe environment for patients, visitors, and staff alike. During the show, Abatement Technologies’ experts will be on hand to demonstrate how SHIELD WALL™, offers healthcare facilities a complete solution for their containment needs.
