## **Abatement Technologies Launches ATL Filtration™ Brand to Expand into Filter Replacement Supply and Service**

*Leveraging 39 years of industry experience, the new service will combine expertise and quality to provide reliable, cost-effective filter solutions for commercial buildings*

**FORT ERIE, Ontario – April 23, 2024** – [Abatement Technologies](https://www.abatementtechnologies.com), a manufacturer of specialized construction containment and filtration products designed to help protect those in and around construction in occupied spaces, is pleased to announce the launch of its new service, ATL Filtration™. Backed by 39 years of experience in the indoor air quality industry, ATL Filtration by Abatement Technologies is on a mission to provide affordable, comprehensive air filtration solutions and exceptional service for commercial buildings in the United States and Canada.

ATL Filtration’s team of National Air Filtration Association (NAFA) Certified Air Filter Specialists (CAFS) will work alongside customers to provide filter replacement services and help determine the best quality replacement filters to keep building occupants safe.

“ATL Filtration’s specialists, or Aire Guardians as we call them, are trained indoor air quality professionals. They take time to understand each building’s unique requirements to recommend the most suitable filter solutions,” said Greg Parlee, EVP Sales, Marketing and Distribution, Abatement Technologies, Ltd. “Leaning on Abatement’s success as leaders in clean air, ATL Filtration is well equipped with the knowledge and expertise to provide a personalized experience for customers and recommend the most suitable filter solutions.”

ATL Filtration, by Abatement Technologies, now offers a range of services for industrial buildings including:

- Complete facility assessments/surveys
- Local stock for next day delivery
- Customized filters made on site
- Will call services
- Life cycle cost analytics

ATL Filtration is currently serving Ontario, Quebec, the Atlantic Provinces in Canada and the state of Georgia in the US. ATL Filtration will continue to expand into new locations in the future.
