## **Abatement Technologies Helps Century Building Materials Rent Smart**

*Century Building Materials, a subsidiary of Atlanta-based Batson-Cook Company, captures the rental market with Abatement Technologies' reliable indoor air quality products*

**FORT ERIE, Ontario — Aug. 29, 2023**— [Abatement Technologies](#), a manufacturer of specialized construction containment products designed to help protect those in and around construction in occupied spaces, announces it is supplying temporary containment products to Century Building Materials, a subsidiary of Batson-Cook Company. Century Building Materials rents containment options to contractors working in critical environments, and Abatement's Technologies proudly offers products clients need to protect indoor air quality. This collaboration success story is detailed in a new case study, "[How Century Building Materials Rents Smart with Abatement Technologies.](#)"

Over the past decade, Batson-Cook has been involved in several critical care projects ranging from breast cancer centers to NICUs. While working in these environments, Century Building Materials discovered the crucial need for indoor air quality products. The company expanded into the air quality product rental business, founding Century Building Materials to offer these critical products to contractors with Abatement Technologies as its main supplier. Century Building Materials is able to offer multiple rental options including:

- SHIELD WALL™ modular containment systems
- Portable air scrubbers and filters
- Personal Protective Equipment (PPE)
- Negative air machines
- Pressure monitoring equipment

Relying on Abatement Technologies' rapid order fulfillment capabilities and high level of customer service, Century Building Materials is able to ensure products are always available for its rental customers at a moment's notice. Additionally, Abatement Technologies plays a key role in ensuring Century Building Materials' clients meet all applicable industry standards, like American Society for Healthcare Engineering (ASHE) Infection Control Assessments and other ASHE standards.

Michael Smith, Director of Building Materials and Leasing, Century Building Materials, said, “Abatement Technologies has been a huge asset to our company from the very start of our partnership. The company’s knowledgeable team members have taught me a lot in the way we position our products and keep me apprised on the status of incoming and out-of-stock products. That level of partnership has helped us be tremendously successful in the rental industry.”
