

AIRE GUARDIAN® DOOR GUARD

Temporary Reusable Dust Barrier

AG-DG100

AG-DG100

The AG-DG100 is a high-quality, reusable dust control barrier designed to help healthcare facilities and facility contractors comply with CDC ICRA Construction Guidelines. The barrier helps protect patients and staff by clearly identifying work areas, and isolating and containing airborne particles within the work zone.

FEATURES & BENEFITS

- Markings demonstrate visible evidence of standards compliance
- Easily mounts around the perimeter of standard 84" tall, 44" to 49" wide doorways
- Two Door Guards can be taped together to fit over double doors
- Installs using fire retardant tape
- Eliminates time and expense to assemble zippered doorways in poly barriers
- Two-way entry via zipper pulls on both sides
- Built-in tiebacks for equipment, or patient bed pass through
- Durable 10 mil, scrim reinforced, tear-resistant fabric is washable & reusable
- Meets Federal Test Standard No. 191A Method 5903, ASTM E-84 Class B Flame Spread, NFPA 701 and CA State Fire Marshall, Sect 13115

TECHNICAL SPECIFICATIONS

DESCRIPTION	AG-DG100
Dimensions (LxW)	89" x 60" (2.26m x 1.52m)
Maximum Usable Door Height	84" (2.13m)
Material	Fire rated 10 mil tear-resistant fabric
FR Specifications	Federal Std. 191A Test Method 5903 ASTM E-84 Class B Flame Spread NFPA 701 CA Fire Marshall, Sect 13115

Specifications are subject to change without prior notice.
