

ATL900

MOLD RESISTANT COATING

Durable | Scrubbable | Inhibits Mold Growth

ATL900

Abatement Technologies Mold Resistant Coating antimicrobial product protection is designed to inhibit stain and odour causing mold, mildew, and other fungal growth on the cured coating film. This durable, scrubbable, satin finish coating can be used on a variety of interior building surfaces such as wood, walls, ceilings, plaster, sheetrock, and concrete. Abatement Technologies Mold Resistant Coating contains a fungistatic agent that is US EPA-registered for use in paint.

FEATURES & BENEFITS

- Antimicrobial coating
- Approximately 300 - 400 square feet per gallon on smooth surfaces, and 100 - 200 square feet on porous surfaces
- Goes on white, dries white

TECHNICAL SPECIFICATIONS

DESCRIPTION	UNIT	ATL900
Physical State	-	Liquid
Colour	-	White
Odour	-	Slight latex
Acidity	pH	8.25- 8.75
Boiling Point	°F	212
Flash Point	-	None to boiling
VOC Content	-	< 5 g/L

Specifications and details are subject to change without prior notice.
