

# PORTABLE SHOWER EQUIPMENT

## Pump and Filtration Unit

S53000

### S53000

The S5300 Portable Shower Pump / Filtration unit is designed to be used in conjunction with Abatement Technologies® S5000ET and S4000EU telescoping shower units. Together, these units provide an effective and durable decontamination hower for asbestos abatement and other remediation projects.

### FEATURES & BENEFITS

- Quickly filter shower water for effective decontamination
- Dual stage filtration keeps the secondary filter free of large particles
- High performance pump can handle large quantities of contaminated water for long periods of time
- Standard garden hose fittings for flexibility of application and ease of setup
